

## XPENG Announces Vehicle Delivery Results for June and First Half 2024

July 1, 2024

### 10,668 vehicles delivered in June 2024, a 24% increase year-over-year

GUANGZHOU, China, July 01, 2024 (GLOBE NEWSWIRE) -- XPeng Inc. ("XPENG" or the "Company," NYSE: XPEV and HKEX: 9868), a leading Chinese smart electric vehicle ("Smart EV") company, today announced its vehicle delivery results for June and first half of 2024.

In June, XPENG delivered 10,668 Smart EVs, representing a 24% increase year-over-year and up 5% over the prior month. This month the XPENG X9's deliveries reached 1,687 units, with its cumulative total up to 13,143 units just half a year after its launch, maintaining its impressive streak as the top seller in both the all-electric MPV and three-row model segments in China. Overall, XPENG delivered 52,028 Smart EVs in the first half year of 2024, a 26% increase from last year.

In addition, the monthly active user penetration rate of XNGP in urban driving scenarios reached 84%. In July, XNGP will achieve the milestone of nationwide availability on all public roads through a significant OTA update, with more end-to-end large model applications being implemented.

A major upgrade to AI Tianji OS, XPENG's AI-powered in-car operating system, is also slated for the third quarter of this year, along with its official overseas launch.

In July, the Company will unveil more details about the all-electric hatchback coupe, Mona M03. Boasting AI-powered aesthetic precision and appeal, Mona M03's dynamic grace echoes the golden ratio of classic sports coupes. Notably, Mona M03 offers the lowest drag coefficient at a mere 0.194 among all mass-produced models in its class worldwide.
