Press release**XPeng Announces Vehicle Delivery Results for April 2021**

05/01/2021

- *5,147 vehicles delivered in April 2021, a 285% increase year-over-year*
- *Year-to-date deliveries reached 18,487, a 413% increase year-over-year*

GUANGZHOU, China—(BUSINESS WIRE)—XPeng Inc. (“XPeng” or the “Company”, NYSE: XPEV), a leading Chinese smart electric vehicle (“Smart EV”) company, today announced its vehicle delivery results for April 2021.

XPeng delivered a total of 5,147 Smart EVs in April 2021, representing a 285% increase year-over-year. The April deliveries consisted of 2,995 P7s, the Company’s sports smart sedan, and 2,152 G3s, its smart compact SUV. As of April 30, 2021, year-to-date deliveries reached 18,487 units, representing a 413% increase year-over-year.

The Company has expanded its product portfolio and started to deliver the P7 Wing edition and the lithium iron phosphate (LFP) battery-powered G3 in April. Delivery of LFP battery powered P7 will start in May as planned.

XPeng’s third production vehicle, the LiDAR-equipped P5 sedan, was unveiled in April and has received robust feedback for its market leading and user-centric features. The Company plans to launch the sales of P5 in the third quarter with deliveries in the fourth quarter 2021.

Also in April, the Company formed a strategic partnership with Zhongsheng Group, a leading automobile dealership group in China, to further expand its sales and services network while strengthening after-sales service capabilities. Zhongsheng Group will be investing in and operating authorized XPeng branded dealership outlets to provide smart EV sales and services, first to be launched in tier-1 and high-potential cities in China within 2021.

As part of its long-term strategic roadmap to embrace the auto sector’s transformation, the Company entered into a cooperation agreement in April with the City of Wuhan to build a new XPeng Motors Wuhan Smart EV Manufacturing Base in Wuhan with expected annual capacity of 100,000 units.
