The year-over-year decrease was mainly attributable to lower vehicle deliveries for the G3i and P7, while the quarter-over-quarter decrease was mainly due to lower vehicle deliveries for the P5 and P7 with partial offset by the newly launched G9.

Revenues from services and others were RMB0.48 billion (US\$0.07 billion) for the fourth quarter of 2022, representing an increase of 29.9% from RMB0.37 billion for the same period of 2021 and a decrease of 17.7% from RMB0.58 billion for the third quarter of 2022. The year-over-year decrease was mainly due to the decrease of commission to the franchised stores associated with lower vehicle deliveries. The quarter-over-quarter increase was mainly attributable to the higher marketing, promotional and advertising expenses to support vehicle sales.

Loss from operations was RMB2.52 billion (US\$0.36 billion) for the fourth quarter of 2022, compared with RMB2.43 billion for the same period of 2021 and RMB2.18 billion for the third quarter of 2022.

The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure. The Company mitigates these limitations by reconciling the non-GAAP financial measures to the most comparable U.S. GAAP performance measures, all of which should be considered when evaluating the Company's performance.

For more information on the non-GAAP financial measures, please see the table captioned "Unaudited Reconciliations of GAAP and non-GAAP Results" set forth in this announcement.
