GUANGZHOU, China, March 01, 2025 (GLOBE NEWSWIRE) -- XPeng Inc. ("XPENG" or the "Company," NYSE: XPEV and HKEX: 9868), a leading Chinese smart electric vehicle ("Smart EV") company, today announced its vehicle delivery results for February 2025.

XPENG delivered 30,453 Smart EVs in February, marking a 570% increase year-over-year.

Deliveries of the XPENG MONA M03 surpassed 15,000 units for the third consecutive month, while cumulative deliveries of the XPENG P7+ exceeded 30,000 within the first three months of its launch. Moreover, XPENG uncovered the user profile of XPENG P7+, pointing to smart driving being one of the top reasons consumers buy the P7+. In the first two months of 2025, XPENG delivered 60,803 Smart EVs, reflecting a 375% increase compared to the same period last year.

In February 2025, XNGP's monthly active user penetration rate in urban driving reached 86%. According to the Spring Festival smart driving usage report released by XPENG, XPENG's total mileage of smart driving and total time by smart driving during the Spring Festival travel season increased 98.2% and 103.5%, respectively, over the same period last year. At the same time, the smart driving user penetration reached 93.3% and the longest smart driving mileage on a single vehicle hit 12,300 kilometers. In 2025, XPENG will commence development and testing of its Turing AI Smart Driving system for international markets.

In February, the 2025 Edition of XPENG G6 debuted for the China market, showcasing new designs, enhanced features, and cutting-edge smart technologies.
